

AAU Basketball gives every kid the opportunity to play basketball at a competitive level. It provides participants an opportunity to try a variety of positions on the court, regardless of skill level.

The Save My Son PM Eagles is an AAU Basketball team who has celebrated many victories since it began in 2015.

Save My Son PM, Inc.

Promoting
Greatness
In
Youth
Mindsets

OUR VISION

Save My Son PM, Inc. is the village that creates future leaders and community volunteers. We promote greatness in youth mindsets by helping them develop the communication and social skills necessary to emerge as confident, culturally knowledgeable, and personally accountable leaders bound for success in college or in the labor market.

We encourage cultural enrichment and appreciation for diversity through engagement in the cultural arts at the national and international levels. We teach life skills by engaging in community service and finding opportunities for meaningful mentorship. Through career counseling and secondary/postsecondary preparation programs, we help youth get excited about their futures and set them on a path to success.

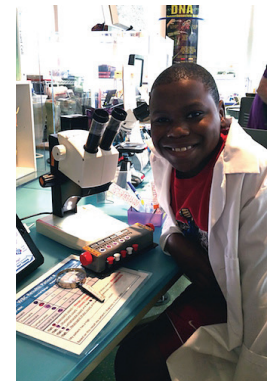

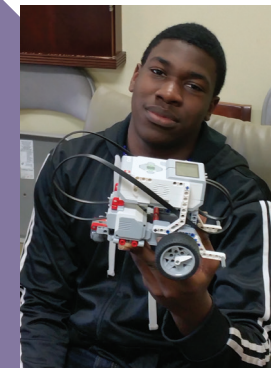

By providing a mentoring and nurturing environment, Save My Son PM, Inc. positively transforms the mindsets of youth through education and social services while exposing them to positive, life-changing opportunities.

OUR PROGRAMS

STEM

Science, Technology, Engineering, and Math.

We inspire our kids to become science and technology leaders by

engaging them in lab experiments and introducing them to exciting programs such as Robotics.

PUBLIC SPEAKING

We work with our youth to help them construct, deliver and own their messages and prepare them to speak in a variety of public situations and environments.

RECREATION

Opportunities to participate in a variety of sports and activities promotes a healthy body and mind as well as teamwork.
